

 **HYPERSOUND CLEAR™ 500P**
Hear every word™

Introducing the HyperSound Clear™ 500P, your personal surround sound system. Unlike other speakers, it beams customized sound directly to you without disturbing others—no headphones required. Simply plug it into your TV, point it at your favorite seat, and watch whatever, whenever. No more closed caption, lip reading, or play-by-plays from the person next to you. With your own volume control, you won't just be in the room, you'll be a part of the room.
